

Fire Engine Drivers

The Victorian Police, Fire and Ambulance station which houses the National Emergency

Services Museum in Sheffield City Centre is a hub of activity. With over 40,000 visitors a year, multiple events, corporate bookings, school visits, TV filming and more this historic heritage site is a bustling visitor attraction. To cope with our increasing visitor numbers we are looking to increase our driving team. Join a community of passionate volunteers in

ensuring this busy visitor attraction maintains a fantastic visitor experience.

Join a warm and diverse team in an exciting time in NESM's story. Candidates will have the opportunity to get hands on with vehicles, get involved in the visitor experience, be a part of our events and be involved in the preservation of history.

As an interactive museum and visitor attraction, NESM offers real-life fire engine rides! In the role as driver you will be the friendly face that visitors see as they climb aboard. The candidate would need to be happy around visitors and ready for a chat, legally able to drive a fire engine (hold the correct license) and most importantly, be just as enthusiastic for nee-naws as those enjoying the ride!

What we are looking for:

- Passion and enthusiasm.
- An ability to adapt and use initiative.
- Basic maintenance knowledge/skills.
- Ability to work independently or in a team.
- Hold the correct driving license and legally be allowed to drive.
- Weekend and bank holiday availability.

This role will be weekends and bank holidays primarily, as this is when we offer the fire engine ride experiences. The role would involve the driving of the vehicle and when required, the preparation checks/cleaning and the cleaning and tidying at the end of the day. The candidate would also be involved in preparation of the vehicles for big events as well as being

involved in the events themselves. This will often be at other locations.

For more information please contact info@emergencymuseum.org.uk or call 01142491999.
